Survey Questionnaire: Special Questions for April 2011

Please answer the following questions, which are designed to provide critical help for NAHB lobbyists. Congressional, regulatory and public affairs staff regularly request this type of information, which we last collected in 1995, and which we cannot provide using current data.

4. Does your	company have su	ibstantial experience in	acquiring raw lan	d and developing lots?
		□ Yes	\square No	
If "Yes" in q	uestion 4, please	answer 5a through 5f	. If "No" in ques	tion 4, please skip to 6a.
cost? (In	nclude costs of fis	11 2	other studies, and	sion approval <u>as a percent of finished lot</u> any review or other fees that must be paid <i>tro percent</i>)% of finished
	-	s it take between the tire proval to start site work		oning/subdivision approval and the time onths
left unbu	ilt (for parks, ope	•	etc.) as a percent	tted to the local government or otherwise of finished lot cost? (Please enter "0" if shed lot cost
with regu	ulations <u>as a perce</u>	ent of finished lot cost?	(Include costs of	egins, how much does it cost to comply environmental mitigation, and hook-up or see regulations is Zero percent).
		% of finished	lot cost	
		complying with regular no delay).		evelopment process? (Please enter "0" if
added to	the cost of develo	_	percent of finished	idths, and other development requirements lot cost? (Please enter "0" if changes in recent impact on costs).
	% of 1	inished lot cost	□ Was no	t developing lots 10 years ago
Questions 6a begins.	and 6b deal with	n the construction pha	se of the project,	after excavation/foundation work
impact of		nt fees as a percent of to	otal construction c	you pay for permit, hook-up, inspection, osts? (Please enter "0" if fees paid during construction costs
building	=	a percent of total const		les and standards added to the cost of ease enter "0" if code changes have had
	% of	total construction cost	ts \square Was	not building homes 10 years ago
